

ELLIPSE CEILING™

With its elegant, feminine body shape, the Ellipse™ Ceiling is an impressive focal point in any modern interior.

It owes its curvy shape to more than 400 manual bends on each of the four metal sheets which construct the body of the Ellipse™ Ceiling. Organically shaped, hardened glass shields protect the lively dancing flames from air draughts.

The Ellipse Ceiling™ is equipped with a tube, which can be adapted in length to cater for any ceiling height and angle. With a hidden rotation mechanism, the Ellipse Ceiling™ can be freely rotated by 360 degrees, which allows a view of the fire from any location in the room.

Finish	Powder-coated and brushed stainless steel
Materials	Steel, stainless steel and tempered glass
Weight	60kg (excl. tube)
Burner Volume	3 litres
Heat Efficiency	3.0 kW/h
Burning Duration	4-8 hours (depending on flame intensity)

STANDARD FINISHES

OPTIONAL
